Gemma Short Edit

Cane Type: Haptic Cane

About Student:
Gemma has used a white cane for a while now, but is struggling with navigating across a crosswalk. Gemma wanted a safe space to learn how to use a crosswalk to avoid getting hit by a car.

Progress Update

Basic Navigation:	100%
Obstacle Identification:	95%
Obstacle Avoidance:	95%
Complex Navigation:	70%
Crosswalk Navigation:	50%
Stairs Navigation:	95%

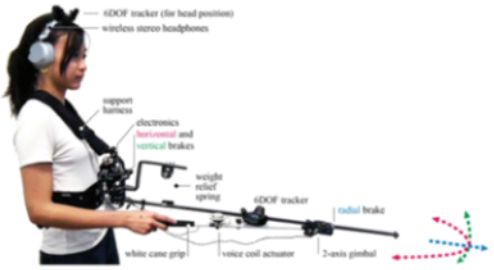
VIRTUALL

Profile About Screen Reader

FEATURES

Haptic White Cane



Feel like you are really there

Our haptic white cane allows you to feel the virtual environment as if you were really there. The white cane will react to objects in the training environments to simulate movement in the real world

Feels like an actual white cane

Our haptic white cane has been designed to feel just like a white cane that you would regularly use to enable a seamless transitioning to navigating outside of the virtual environments.

Easy to set up

The white cane only needs to connect to the bluetooth on your mobile device or computer to work.

Training Environments

VIRTUALL

Profile About Screen Reader

Virtual Training Environments

Each training environment guides the user to learn distinct white cane skills. Users can start from no experience using a white cane to independent navigation after mastering these training environments. These training environments will allow for a seamless transition from virtual learning to real life navigation.
